Professional Summary

Computer Computer Science Engineering undergraduate specializing in Cybersecurity and IoT, with hands-on experience in developing web applications and software solutions. Proficient in programming, databases, and emerging technologies such as AI and networking. Strong problem-solving skills, quick learner, and passionate about building scalable and reliable applications while applying technical knowledge to real-world challenges.

Education

Bachelor of Technology - CSE (Cybersecurity, IoT, Blockchain) <i>Maharaja Vijayaram Gajapathi Raj College of Engineering (MVGRCE)</i> Vizianagaram, Andhra Pradesh	2024-2027
Diploma - Computer Engineering <i>Sai Ganapathi Polytechnic</i>	2021-2024

Skills

Languages:	Java, Python, C, C++
Web & Frontend:	HTML, CSS, JavaScript, Bootstrap
Backend & APIs:	Django
Databases:	MySQL, SQL
Tools & Platforms:	Git, GitHub, VS Code

Certifications & Experience

Python Full Stack Virtual Internship - AICTE EduSkills - Developed Django-based applications and implemented CRUD operations. - Applied Object-Oriented Programming (OOP) concepts for efficient software design. - Continuously learned and applied new programming concepts to bridge theoretical gaps.	Remote 2026
Java Full Stack Intern - Tanvasi Technologies - Built web applications using Java in an Agile environment. - Performed debugging and optimization to enhance application performance.	2023-2024

Projects

Self-Healing SRE Agent GitHub Repository - Automated monitoring and recovery system to reduce downtime using scripts. - Focused on building efficient and scalable solutions for system reliability.
Library Management System Live Demo GitHub Repository - Web-based system for managing books and users. - Implemented CRUD operations using Python and Django.
